Team Building Events Contribute to Business

How?

.1

Problem Solving.

Requires co-operation & team work;
Ensures members speak to each other;
Needs clear communication;
Requires stakeholders to exercise
patience and deliver critical thinking.

.2

Team Work.

Helps employee's better understand each others strengths &
weaknesses;
Improves workplace morale & project accomplishment;
Fosters a more comfortable environment, where members
work with each other leading to better workplace creativity.

.3

Management skills.

Good management skills increase efficiency and
increase productivity;
Discover new talents within your staff through
our activities.

.4

Communication.

Better communication and working closer together are the key
points to any good team building activity. By breaking down
barriers, easing tensions, & fostering interdepartmental
communication, team building creates connections among
integral stakeholders to make any workplace thrive.

.5

People Skills.

People tend to have a more robust imagination, when they are with people they
are comfortable with. So, successful team building events not only bring people
closer together, they also lead to more creativity in problem solving and this in
turn generates successful workplace ideas.

The Process...

Although no two games are ever alike; here's what a typical Planning Process might look like for your group

.1

Initial Meet.

The Super Fantastic Team will listen for details about your unique team situation & help explain each game format in detail or answer any questions you may have.

.2

Goal Orientation & Game Selection.

Once we know your exact goals, we analyse the situation & begin to create a custom plan, tailored to your specific requirements. At this stage, we can also discuss finer details, such as venue arrangements, prize packages, & catering, if necessary.

.3

Creation & Customization.

Armed with the knowledge from the first two steps, TSFC team will create a custom-made game to maximise the potential of your group

.4

Game Play & Team Work.

THIS IS THE BEST PART!!

TSFC will lead your teams through a brief explanation on how to use *The Go Game* app and then let them loose to participate in a super fun event that won't soon be forgotten & leave players smiling from ear-to-ear!

.5

Game Analysis (Optional).

All of the player-generated media is kept on a password-protected website, so players can access them at any time to relive the memories, smiles & laughs... Although rare, some groups choose to have game play analysis after the event to demonstrate why certain teams performed better than other teams & this can also be arranged by TSFC
